PROFESSIONAL SUMMARY

High-integrity Full-Stack Developer and former Senior Salesman with a focus on **Revenue Protection** and **Operational Transparency**. Specialized in building "Clean Hands" digital ecosystems that solve real-world business leaks. Currently architecting logistics and security tools while completing the **Meta Front-End Professional Certificate**.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js (App Router), Tailwind CSS, JavaScript (ES6+), HTML5/CSS3.
- **Backend & Security:** Supabase (BaaS), PostgreSQL, Row-Level Security (RLS), Biometric Logic.
- **Tools & Logic:** Git/GitHub, Vercel, Data Syncing, API Integration, Technical Auditing.

CORE PROJECTS (Primary Experience)

eMVeOzHub | Founding Developer *January 2026 – Present*

- Architected a centralized hub for logistics and sales monitoring to eliminate revenue leakage.
- Implemented **Row-Level Security (RLS)** in Supabase, ensuring Sales Representatives only access their specific route and financial data.
- Developed a "Breadcrumb" data path to track field movements and detect "Dark Zones" (signal loss) using time-gap analysis.

Future Focus Language and Training Institute | Security & Attendance Lead *January 2026 – Present*

- Engineered a Biometric "Identity Handshake" system to prevent time-theft in education and corporate settings.
- Designed a resilient offline-first workflow that captures timestamps during internet outages and auto-syncs upon reconnection.

ReggieTech Service Suite | Lead Developer *February 2026 – Present*

- Built a "Repair Lifecycle" tracker for gadget technicians to manage inventory and repair stages in real-time.
- Created an automated inventory alert system for high-turnover spare parts (batteries, screens) to optimize retail sales.

WORK EXPERIENCE

Founding Web Developer | eMVeOzHub *January 2026 – Present*

- Architecting "Clean Hands" digital ecosystems (Next.js, React, Supabase) to automate auditing and prevent revenue leakage.
- Building the Cami Biometric Identity Handshake to replace manual logbooks with secure, verifiable attendance data.
- Developing logic for "Dark Zone" signal loss tracking to ensure field data integrity for logistics and surveying teams.

AutoCAD Draftsman & Land Surveyor | E.F Cabredas Surveying Services

- Utilized AutoCAD and precision technical drawing to create high-accuracy site maps and infrastructure proposals.
- Managed field surveying operations, ensuring that physical landscape data was correctly translated into digital technical specifications.
- Bridged the gap between raw field data and client-ready project blueprints with 100% accuracy.

Sales Representative / Junior Salesman | Bounty Fresh Foods Inc. | Sunpride Foods Inc.

- Managed high-volume client accounts, consistently identifying "leakage points" where manual reporting led to financial loss.
- Translated complex client business needs into actionable sales strategies and technical requirements.

EDUCATION & CERTIFICATIONS

Meta Front-End Professional Certificate | *In Progress (Expected 2026) Coursera*

- Focus: Professional React development, Version Control, and UI/UX Principles.

Bachelor’s Degree / Relevant Courses

EPS-TOPIK (Test on Proficiency in Korean) Passer & Basic Korean Language and Culture Certificate
AutoCAD Tesda Certificate

ADDITIONAL SKILLS

- **Legal Compliance:** Knowledge of RA 8293 (Intellectual Property Code) and Digital Privacy.
- **Precision Design:** Proficiency in AutoCAD and Technical Drawing.
- **Creative Discipline:** Experienced Guitarist (Pattern recognition and disciplined practice).
