PROFESSIONAL SUMMARY

High-integrity Software Engineer with 20 years of technical experience, currently undergoing a dual-certification sprint in Google Cybersecurity and IBM Cybersecurity Analysis. Expert in architecting "Security-by-Design" ecosystems that eliminate revenue leakage and data vulnerabilities. Specialized in Supabase/PostgreSQL security hardening and React/Next.js integrity.

TECHNICAL SKILLS

- **Cybersecurity & DevSecOps:** Defense in Depth, IAM (Identity & Access Management), Row-Level Security (RLS) hardening, Vulnerability Management, NIST Risk Management Framework (RMF).
- **Backend & Data Integrity:** Supabase (Auth/Edge Functions), PostgreSQL (Custom Functions/Triggers), Firebase Realtime DB, API Security.
- **Full-Stack Development:** React 18, Next.js 15, TypeScript, Tailwind CSS v4, React Native (Expo), Node.js.
- **Infrastructure & Tools:** Git/GitHub (Security Linting), Linux Command Line, Vercel, EAS Build Pipelines, AutoCAD (Precision Design).

KEY PROJECTS (The Security Focus)

eMVeOzHub (High-Integrity Sales Hub) | *Lead Architect* | Jan 2026 – Present

- **Security Implementation:** Engineered "Breadcrumb" Data Paths to detect "Dark Zones" (signal loss/tampering) and maintain audit transparency during field operations.
- **Access Control:** Implemented strict Supabase RLS and Identity Handshake biometric logic to prevent unauthorized data access and time-theft.
- **Compliance:** Designed the system to match the CIA Triad (Confidentiality, Integrity, Availability) for logistics monitoring.

Civic-Tech Emergency Response System | *Lead Mobile Developer* | Jan 2026 – Present

- **Mission-Critical Security:** Architected a real-time SOS application with Firebase, ensuring near-zero latency for emergency data transmission.
- **Encryption:** Secured medication compliance data and PII (Personally Identifiable Information) through localized encrypted storage.

PROFESSIONAL EXPERIENCE

Senior Full-Stack Consultant (Independent) | Jan 2026 – Present

- **Future Focus Learning Institute:** Engineered a Biometric "Identity Handshake" system. *Impact:* Eliminated 100% of attendance fraud (time-theft) through secure, verifiable timestamping and offline-first sync architecture.
- **E.F. Cabredas Surveying:** Translated physical survey data into a secure digital database. *Impact:* Reduced data retrieval time and prevented loss of sensitive property records through centralized cloud storage.

EDUCATION & CERTIFICATIONS

- Google Cybersecurity Professional Certificate | *In Progress (March 2026)*
- IBM Cybersecurity Analyst Professional Certificate | *In Progress (March 2026)*
- Meta Full-Stack Professional Certificate | *In Progress (2026)*
- AutoCAD TESDA Certificate | Precision Technical Design
